

## ENVIRONMENTAL & SUSTAINABLE DEVELOPMENT POLICY

Datum specialises in the supply and installation of geotechnical and structural instrumentation systems to the construction, infrastructure maintenance, quarrying, mining and demolition industries.

The company is committed to delivering a high quality of service and aims to comply with, or surpass, all relevant environmental legislation requirements and industry standards. We aim to reduce the impact we have to human life and the environment, by using the best available techniques to prevent pollution and improve our environmental and sustainable performance. The company is committed to:

- Achieving client requirements regarding our products and services, whilst complying with all relevant legislative, regulatory and other requirements to ensure that the workforce and the environment are protected and disturbance is minimised.
- Ensuring compliance with the requirements of BS EN ISO14001.
- Recognising that in order to achieve the needs of today we must not compromise the ability of future generations to meet their own needs.
- Putting measures in place to prevent, control and investigate environmental incidents.
- Monitoring the use of natural resources and reducing, reusing and recycling. Where waste is unavoidably created, steps will be taken to manage the disposal in the most appropriate manner giving full consideration to the environment.
- Driving down energy consumption through initiatives on energy efficiency equipment and by raising awareness to all our employees on the need for energy conservation.
- Developing a structured approach to identify and target business improvements and minimise environmental risks.
- Establishing management systems for ensuring continuous improvement and the identification of environmental aspects, the setting of objectives, targets and programmes, and the use of audits and reviews to regularly monitor and enhance environmental performance.
- Providing sufficient resources to ensure that adequate information, training and supervision is provided to employees to ensure this policy is successfully implemented.
- Providing stable growth and employment and contributing to the social and economic life of the local communities in which we operate.

To support the success of this policy, DATUM Monitoring Services will continue to:

- Work in a manner that minimises environmental impact.
- Comply with the environment management system.
- Report any environmental incident and support investigation into the root cause.

This policy will be reviewed and amended as appropriate, on an on-going basis.
